End-of-Sale Announcement for the Aruba 2E Wired Access Point

Confidentiality Level: Channel Partners

Aruba Networks is announcing end-of-sale for the following product:

PART NUMBER	DESCRIPTION
AP-2E	Aruba 2E Wired Access Point

The above product can be replaced with the following product, which is functionally equivalent.

PART NUMBER	DESCRIPTION
RAP-5	Aruba RAP-5 Multi-port Remote Access Point

Note that the RAP-5 is not compatible with existing AP-2E accessories, such as mounting parts and AC adapters. In general, the RAP-5 represents a superset from a functional and performance perspective. However, the RAP-5 does not support POE powering, and is not plenum rated.

We currently expect to be accepting final orders through December 31, 2009, however this final date will depend on the continued availability of stock and, at Aruba's discretion, the actual end of sale date may be earlier than December 31, 2009. End of support for the product is December 31, 2014. We strongly encourage you to transition all backlog and new business to the Aruba RAP-5 as the recommended solution.

Definitions
