In general, the proposed replacement products represent a superset from a functional and performance perspective. The specific replacement model will vary depending on the application.

We currently expect to be accepting final orders through January 31, 2012, however this final date will depend on the continued availability of stock and, at Aruba's discretion, the actual end of sale date may be earlier than January 31, 2012. End of support for the products is January 31, 2017. We strongly encourage you to transition all backlog and new business to the Aruba AP-92/93 or AP-124/125 as the recommended solution.

Notes on Accessories and related Products

Mounting and powering accessories and antennas will continue to be offered, since these are compatible with the AP-124/125 model as well. Also, AP upgrade licenses for the AP-120 and AP-121 models will continue to be available.
